THE GOLDEN TUSK RESORT

uttarakhand, india

The Golden Tusk Resort by M:OFA Studio is an agro-resort, in its truest sense. The aim of the design is to give a firsthand experience of country life to urban travelers. Apart from living next to nature in the cottages that show local materials expressed in contemporary design, the program also includes an experience in a farm with poultry, cattle, goats, fish and elephant rides. Throughout the resort, the use of local stone masonry, reclaimed wood carpentry

and metal work are all reflections of the capabilities of local craftsmanship and materials of the surrounding regions that maintain the sensitive bond of sustainability by keeping old professions alive. The residential accommodation, restaurant, swimming pool, spa and recreational area are all arranged along a rivulet that runs like a spine through the length of the site with multiple sit-out spaces and porches. if
